MSI Mechanical Systems, Inc. is hailed by ***Construction Executive Magazine*** in its Community Spotlight section in the October, 2009 issue. MSI was selected from among many contractors from around the country for its generous support of such organizations as:

- Merrimack Valley Habitat for Humanity
- Make-A-Wish Foundation of New Hampshire
- Boys and Girls Club of Salem
- New Hampshire Food Bank

MSI set the example of giving back to the community by its response to a fire in Lawrence, MA that left five families without shelter. Facing a grim situation, the staff of Merrimack Valley Habitat for Humanity and community volunteers committed to rebuilding the homes as quickly as possible. MSI Mechanical Systems answered the call for help by volunteering to install HVAC systems for an entire duplex.

The company's donation totaled more than \$22,000. "In these tough times, it's hard for anyone to help," says Brian Hooper, vice president of operations for MSI Mechanical Systems. "We wanted to do more than write a check. We're a specialty trade, and we knew we could make our abilities useful. We all worked hand in hand to get it done."
