## **ACCA Features Contractors' Stories**

The Air Conditioning Contractors of America (ACCA), the nationwide association of heating, ventilation, air conditioning, and refrigeration (HVACR) contracting businesses, announced the latest issue of its flagship magazine, *Contractor Excellence* will include an article on how two family-run HVACR businesses address generational issues.

Brian Hooper, vice president, MSI Mechanical Systems, Inc., Salem, New Hampshire, discusses navigating family relations, keeping the peace and more. "Working with family can be more difficult, but also more rewarding" said Hooper. He and his brother Tom, Jr. have worked with their father, Tom Sr., since 1995.

MSI Mechanical Systems Inc is a Salem, New Hampshire based mechanical contractor and facilities service provider for commercial, industrial & retail projects including the basic through the most sophisticated mechanical systems. Today's MSI was founded in 1995, but has roots back to Tom Sr.'s original company founded in 1979.

Hobaica Services, Inc., Phoenix, Arizona is also featured in the article.

*Contractor Excellence* magazine is published quarterly for the Air Conditioning Contractors of America. More information may be obtained online at [www.acca.org/magazine](http://www.acca.org/magazine).

*For over forty years, ACCA has served the nationwide educational, policy, and technical interests of the small businesses who design, install, and maintain indoor environmental systems. For more information, visit [www.acca.org](http://www.acca.org).*
