

EMC<sup>2</sup>

Where Information Lives

June 1, 2009

Mr. Brian Hooper  
Mechanical Systems Incorporated  
10-12 Delaware Drive  
Salem, NH 03079

Dear Brian,

I would like to thank you and your team for a job well done on the 2008 Infrastructure Project. The MSI team went above and beyond to ensure a successful project completion.

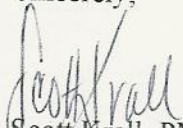

This project required extensive coordination for the installation of a new air cooled chiller plant and associated main chilled water distribution piping which had to be installed in very tight spaces. MSI worked closely with project team to ensure that there was minimal impact to EMC's Engineering Development labs.

It's a pleasure partnering with a company that is as conscious as EMC about quality, cost and schedule and will do what ever it takes within the project parameters to ensure the client is satisfied.

I look forward to working with MSI on future EMC projects.

Thank you again for a job well done.

Sincerely,

Scott Krall, PMP  
Manager of Project Services  
EMC Global Real Estate and Facilities
