Subject: EMC Lab Upgrade

I wanted to congratulate you on your excellence in managing the chiller upgrade at EMC. As you know there was quite a lot of coordination and planning that goes into scoping the proper equipment, as well as timing the deliveries and labor for such a project. I believe your strategy in renting the Aggreko chiller ahead of time to insure EMC would have a chiller rental available if needed on an emergency basis was a great one, and had your customer covered on all angles. Your team handled this process with as great an efficiency as I've seen in this industry from any mechanical contractor, MSI is truly in a class of it's own. I would certainly recommend anyone to MSI, and am excited to work with your company in the future.

Thank you for choosing Aggreko, LLC, and letting us be a part of your success!

Sincerely,
Greg Larson
